

CarePortal is a nationwide online platform that brings the needs of vulnerable children and their families to the attention of the local church. Harvest Family Life Ministries is the Implementing Partner for CarePortal for the State of Hawaii that connects the local church to children and families in crisis through the partnership they have with local agencies and social workers who serve these children and families in need.

CarePortal has been active with 7 churches in Kona since 11/9/2018 and 15 churches on Oahu since 7/27/2019 and those churches have connected with and served over 260 vulnerable children and their families in that time. Through CarePortal, our church has the opportunity to serve and meet the needs of vulnerable children and their families around the island with the potential of developing long term relationships with these families.

We are thankful to God for this opportunity to participate in this pro-life ministry to serve vulnerable children and their families through CarePortal! To find out more about CarePortal, you can visit [CarePortal.org](https://www.CarePortal.org), or please feel free to email as well if you have any questions.
